

HDSSM-50 & HDSSM-75 Floor-to-Floor Expansion Joint Cover with Stainless Steel Deck

Features

The HDSSM Series Surface Mounted Heavy-Duty Vehicular expansion joint covers with stainless steel cover plates are designed for heavy-duty vehicular applications. Incorporated gasket seals reduce traffic noise and vibration in vehicular applications. They can accept heavier traffic (subject to the load and the span), such as EWP's, and regular vehicular traffic, such as cars and vans. For more load information, contact Latham Australia who can supply point loads to suit various traffic loads and wheel sizes.
