

BSL-10 Solid Brass Floor-to-Wall Slip Joint

Features

Multidirectional
4-way Movement

Indoor Use

Slip Resistant
Sumo Grip (P4)
Coating Available

The BSL-10 Series solid brass floor-to-wall slip joint is designed to be installed with vinyl flooring in areas where limited horizontal movement is expected. This style of expansion joint cover would usually be considered for supermarket and large department store applications, usually in slab-on-ground applications.

Materials

- Supplied in Brass 380 mill finish alloy.
- Supplied in 4000mm lengths.

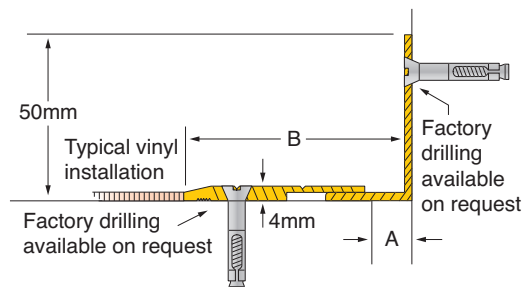

Fixings

- The material is available with factory drilling for fixing at approximately 350mm centres on request.
- We recommend Latham Thixotropic Epoxy Adhesive be used in conjunction for superior securing.

TECHNICAL CHARACTERISTICS

Illustrated: BSL-10

Solid Brass Code Ribbed Deck	A	B	Movement	Total Available Movement	Overall Depth
BSL-10	12	65	+/-12mm	24mm	Surface Mounted

All dimensions in millimetres. All mechanical expansion joint fixings by others.
