The SAS (FASM 50) Ultimate Series robust floor-to-floor expansion joint covers carry a stainless steel cover plate. The series is designed to be fixed with floor finishes to 50mm deep, intended predominantly for pedestrian applications. These joints can be used in conjunction with many floor finishes such as concrete toppings, terrazzo, tile, pavers and stone. They would commonly be used in locations such as shopping centres, hotels, office foyers, schools, airports and other pedestrian traffic situations.
