PRODUCT DETAILS - FL-AB734ST

Latham Tredlite Illuminated Slip Resistant Safety Stair Tread Nosings feature the newest safe low voltage 24V LED lighting technology, which is cheap and efficient to run. For most applications all necessary hardware is supplied, including transformers which will simply plug into a power point.

The standard FL lighting system is installed to create a fan light effect over the risers and treads in darkened conditions, providing confidence and safety for negotiating the stairs.

The Latham Super Visual range in All-Black and All-White are specifically designed to meet the requirements of AS1428.1-2009. The All-Black should be used with a light background (step).
