PRODUCT DETAILS - TOP-1005ST

Latham Tredlite Illuminated Slip Resistant Safety Stair Tread Nosings feature the newest safe low voltage 24V LED lighting technology, which is cheap and efficient to run. For most applications all necessary hardware is supplied, including transformers which will simply plug into a power point.

For the top stair treads, landings and platforms or through-out the staircase, dual purpose Tredlite (TOP) should be considered with the first slip resistant bar in off white colour, designed to emit a low glow lamp effect as well as a fan light effect. The holes are approximately 8mm in diameter and are at approximately 66mm centres.
