FEATURES

- Aluminium floor expansion joint cover with a stainless steel cover plate.
- Designed to finish flush with the surrounding floor finish (can be suitably packed up to height if required).
- Installed into a minimal recess, or providing the joint width is 62mm or larger, the system can simply hang over the edge of the slabs and no recess is required.

MATERIALS

- Aluminium 6063-T5 mill finish alloy.
- 304 Grade, 2B finish stainless steel cover plates.
- Supplied in 3050mm lengths.
- Spring steel treated centering bar with elongated spherical rods (at ~475mm centres).

FIXINGS

- Side members pre-drilled at ~475mm centres to accept countersunk head 6.5mm fixings.
- We recommend Latham Thixotropic Epoxy Adhesive be used in conjunction for superior securing.
